

姓名：\_\_\_\_\_

範例：

|  |                             |
|--|-----------------------------|
|  | $4 + 3 = 7$ <p>共有( 7 )隻</p> |
|--|-----------------------------|

|  |                             |
|--|-----------------------------|
|  | $4 - 3 = 1$ <p>剩下( 1 )隻</p> |
|--|-----------------------------|

算算看：

|  |                                                                                     |
|--|-------------------------------------------------------------------------------------|
|  | $\square + \begin{matrix} + \\ - \end{matrix} \square = ( \quad )$ <p>共有(    )條</p> |
|--|-------------------------------------------------------------------------------------|

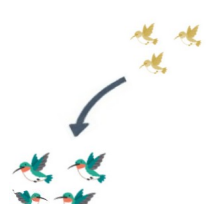

|  |                                                                                     |
|--|-------------------------------------------------------------------------------------|
|  | $\square + \begin{matrix} + \\ - \end{matrix} \square = ( \quad )$ <p>剩下(    )條</p> |
|--|-------------------------------------------------------------------------------------|

|  |                                                                                     |
|--|-------------------------------------------------------------------------------------|
|  | $\square + \begin{matrix} + \\ - \end{matrix} \square = ( \quad )$ <p>共有(    )條</p> |
|--|-------------------------------------------------------------------------------------|

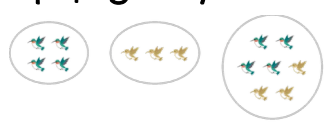

|  |                                                                                     |
|--|-------------------------------------------------------------------------------------|
|  | $\square + \begin{matrix} + \\ - \end{matrix} \square = ( \quad )$ <p>剩下(    )條</p> |
|--|-------------------------------------------------------------------------------------|

姓名：\_\_\_\_\_

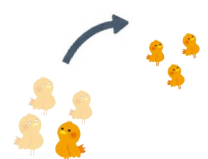

範例：

$4 + 3 = 7$

共有( 7 )隻

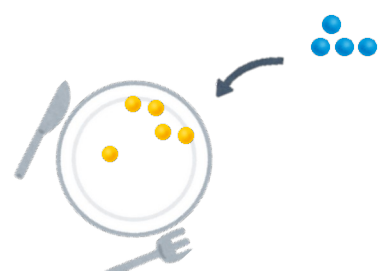

$4 - 3 = 1$

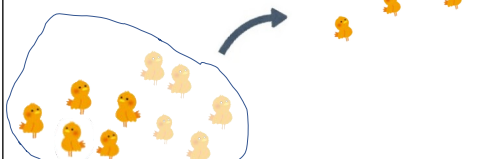

剩下( 1 )隻

算算看：

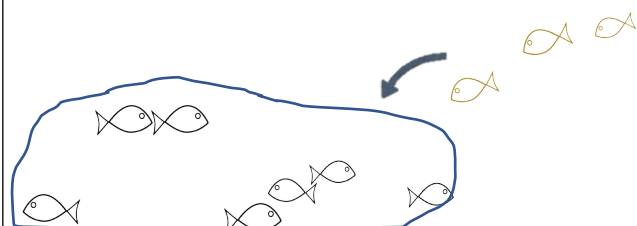

$\begin{matrix} + \\ - \end{matrix}$   = (   )

共有(   )顆

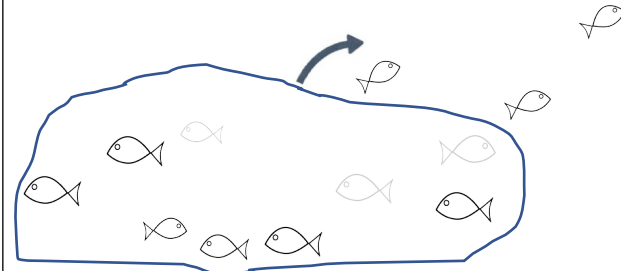

$\begin{matrix} + \\ - \end{matrix}$   = (   )

剩下(   )隻

$\begin{matrix} + \\ - \end{matrix}$   = (   )

共有(   )條

$\begin{matrix} + \\ - \end{matrix}$   = (   )

剩下(   )條
